ABOUT US

Founded in 1979 to serve the ever-changing needs of America's most professional and dedicated business forms distributors, DSFI remains committed solely to that mission.

Now in our third decade of service, DSFI has become one of the fastest growing suppliers of stock, specialty and custom-printed business papers.

Today more than 100 DSFI employees stand ever ready to serve our distributor customers. Quality products, experienced counsel, competitive pricing and an attitude of partnership help to make our business relationships both successful and long lasting.

AMONG THE BENEFITS YOU CAN EXPECT FROM A BUSINESS RELATIONSHIP WITH DSFI ARE:

Continuity of supply, based on the capacity of our four manufacturing plants and our excellent and long-standing relationships with North America's finest paper mills.

A broad range of problem-solving products. Our selection of more than 300 stock and countless custom print and perforation options provides DSFI distributors the dual economies of "best bracket" pricing and reduced freight expenses.

Excellent customer service. It takes only one call to our toll-free order-entry specialists to convince most new DSFI customers.

Experienced sales assistance. Averaging more than 18 years in the business of marketing business papers, DSFI sales team members are uniquely qualified to provide you with expert counsel, as well as high quality products. You can rely on our professionals to help train your staff members and to help you make joint sales calls on high-volume customers and prospects.

Concern for the environment, demonstrated through our use of soy-based inks and our constantly expanding selection of papers exceeding government guidelines for post-consumer waste content.
